## Job Summary:

A Senior Dimensional Control Surveyor is regarded as someone who is fully conversant in all survey aspects of marine survey operations.

Used offshore mainly in the field of Steel Jacket installation, inspection and de-commissioning, dimensional control combines precise measurements and 3D mathematical modelling, enabling objects to be surveyed, analysed and compared with their original designs

They can successfully manage the Survey Project Team during operations and will report directly to the Party Chief.

The Senior Dimensional Control Surveyor is expected to coach and assess members of the Survey Project Team in line with the Competence Management Programme.

## Entry Level Specifications:

- Nominally 24 months including 200 days operational experience as a Surveyor Grade I OR Relevant Industrial, military or academic experience OR Relevant Industrial, military or academic experience
- Valid and current offshore medical certificate that is acceptable in the region of the world in which they are employed
- Valid and current offshore survival certificate that is acceptable in the region of the world in which they are employed

## Competencies:

- 1) The ability to demonstrate and understand standard Dimensional Control survey principles and how they are used during Dimensional Control Surveys
- 2) Complete the Senior Core Competences (1-4)
- 3) Complete the Grade I Surveyor Competences (1-14)
