Senior Dive Technician (Electrical)

Competence 4

Demonstrates the ability to safely operate and maintain various compressor units used within the dive system *This meets the requirements of IMCA D 10/000/03/04/06/07*

Candidate Name:	Date:	

Activity Number (1,2, or 3):

Performance Criteria: all of these must be assessed over a minimum of 3 work activities

Type of Evidence: Observation (O), Work Product (P), Written (W), Questioning (Q), Not Covered (N/C) or Not Applicable (N/A)

	Performance Criteria	Type of Evidence
	Demonstrates the ability to identify and explain the uses of gas transfer compressors, diver reclaim	
a)	compressors, chamber reclaim compressors, LP air compressors, HP air compressors and associated	
	equipment under their control	
	Demonstrates practical awareness of compressor start up/shut down procedures, including pre-use	
b)	visual inspection for gas transfer compressors, diver reclaim compressors, chamber reclaim	
	compressors, LP air compressors and HP air compressors	
c)	Demonstrates how to set up and test system pressure cut-off switch and temperature cut-off switch	
d)	Demonstrates the ability to conduct periodic maintenance routines for gas transfer compressors, diver	
u)	reclaim compressors, chamber reclaim compressors, LP air compressors and HP air compressors	
	Demonstrates the ability to conduct common fault finding and diagnostic routines on gas transfer	
e)	compressors, diver reclaim compressors, chamber reclaim compressors, LP air compressors and HP air	
	compressors	
e)	Demonstrates the ability to comply with company certification and recording systems for all system	
f)	compressor types
