Job Summary:

A Project Surveyor is regarded as someone who is fully conversant in all aspects of marine survey operations.

They can successfully oversee the survey project and team during operations, and will report directly to the Survey Lead or the Survey Manager.

The Project Surveyor liaises and supports the Party Chief and the offshore team.

Entry Level Specifications:

- Education:
 - Degree or Diploma in Marine Sciences such as Geoscience or other relevant qualification.
 - Degree in Land of Hydrographic Surveying
 - Subsea and Offshore qualifications
 - Registration with a recognised professional organisation
 - Degree in Computer Science or Engineering
- (Industry experience can compensate for lack of formally proven competence)
- Experience/ Knowledge:
 - Meet or exceed IMCA competence criteria for Senior Surveyor
 - 7 or more years of experience in a range of differing offshore survey methods
 - At least 24 months of experience, including 200 operational days offshore as a Party Chief
 - Experience with AUV, ROV, diving and inspection survey activities
 - Computer science background
 - Or
 - Relevant industrial, military, or academic experience in a survey related discipline, including relevant management experience

Competencies:

- 1) Manage activities in a safe manner in accordance with legislative and company requirements
- 2) Coordination of activities within the offshore and onshore team
- 3) Implement and ensure company emergency procedures are maintained during operations
- 4) Evaluate and operate software systems and support team members
- 5) The ability to provide support to ensure effective delivery of projects
- 6) The ability to implement and support Survey and Operational positioning requirements
- 7) The ability to ensure company quality procedures are adhered to at all times
