

Competence 8 Underpinning Knowledge Questions

The ability to assist in electrical and mechanical umbilical re-terminations

This meets the requirements of IMCA

Refer to the performance criteria for this competence for guidance on the subjects for questions

Candidate Name:		Date:	
<i>N.B, The Assessor may ask the candidate for oral or written responses to questioning</i>			
Underpinning Knowledge Questions			Satisfactory Response?
1	Describe the isolation procedures that you will follow to make a system safe prior to removing the umbilical?		
2	What documentation is available to assist in re-terminations?		
3	List the tools you would use for an umbilical re-termination		
4	List the safety factors you must take into account when working with fibres?		
5	Explain the re-termination procedure that you would carry out on either an ROV system, diver umbilical or tow fish tether?		
6	Describe the electrical tests you would carry out on the umbilical after the re-termination has been completed		
7	Describe how you would load test a 'lifting' umbilical after re-termination		
8	What documentation requires updating after a re-termination has been completed?
