Job Summary:

A Dive Equipment Manager is responsible for the safe, reliable, and compliant management of all diving and subsea equipment. This includes overseeing inspection, maintenance, certification, and readiness of assets.

A Dive Equipment Manager also plays a critical role in ensuring safety compliance, optimizing equipment performance, and maintaining readiness for deployment. They ensure all equipment meets industry standards and is fully operational for offshore and onshore projects.

Key responsibilities include asset management, coordination of servicing and repairs, documentation control, and supporting operational teams with technical expertise.
