Job Summary:

A Geomatics Surveyor is regarded as someone who is fully conversant in all survey aspects of marine survey operations, including GIS & data processing.

They can safely and efficiently perform within the Survey Project Team including during operations at remote sites and will report directly to the Survey & Inspection Manager (administration) and Survey & Geomatics Lead (professional conduct).

The Geomatics Surveyor is expected to coach and assess members of the Survey Project Team in line with the Competence Management Programme.

Entry Level Specifications:

- A degree (or similar) in Geomatics, Hydrographic Survey or Ocean Mapping
- Meets or exceeds IMCA requirements for Senior Data Processor
 - 5years (or more) experience as an offshore Data Processor or
 - Relevant industrial, military or academic experience in a survey related discipline including management experience.
