ROV Operator

R/R03/000/01-10

Job Summary:

An ROV Operator is someone who can participate safely in all aspects of the basic operation of an ROV system under normal conditions.

They should be able to successfully pilot the ROV in a safe and reliable manner whilst ensuring that all safety and operational checks are carried out prior to and after each dive. They should be able to complete all administrative tasks directly associated with the mission.

Entry Level Specifications:

- Valid and current offshore medical certificate that is acceptable in the region of the world in which they are employed.

Competencies:

- 1) Demonstrates the ability to perform activities in a safe manner in accordance with legislative and operating company requirements
- 2) Demonstrates the ability to participate in emergency procedures as required on the vessel or installation where operations take place
- 3) Demonstrates the ability to perform in a Team and co-operate in all operational activities in a safe and reliable manner
- 4) Demonstrates the ability to perform all the duties required of an observer, including deck checks, during normal operational activities
- 5) Demonstrates the ability to undertake all routine administrative tasks that are required to be undertaken during normal ROV operations
- 6) Demonstrates the ability to pilot an ROV system during normal subsea activities including launch and recovery operations. The Candidate must successfully complete 100 hours piloting over a minimum of 180 offshore days
